Developments of the Originator of Northern Ohio Garden Mums

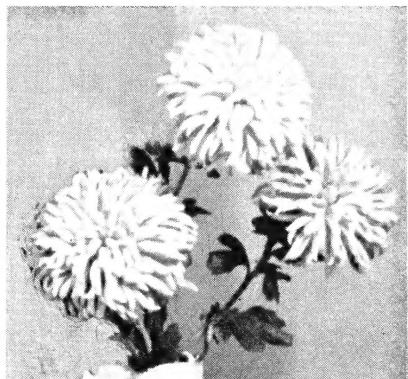

AMERICAS
OUTSTANDING
BEAUTIES

1943

If you do not have our colored
Mum Catalog of 1942 we will
gladly send you one on
request.

MARILYN

MARILYN

MARILYN. Lovely large, very full double flowers. The color is a light bronze, mostly orange shaded. As the flower matures it has a recurve effect. About 15 inches tall. Blooms Oct. 5th.

75c per 10; \$5.00 per 100

FONDEST

1938 Introductions

FONDEST

This is a tubular petaled or spoon type. A close petaled double flower. The color is a peculiar fawn or straw shade. Blooms middle of October. Medium height.

75c per 10; \$5.00 per 100

SUSIE

Has burnt orange duplex flowers of uniform formation. Grows 2 feet tall. Matures October 15. One of the most attractive bright orange bronze for the garden. Valuable for cutting.

75c per 10; \$5.00 per 100

Beauty Blooms - 6 Hardy Mums of '43

Golden Beauty

GOLDEN BEAUTY

A most striking golden yellow ball shaped Pompon measuring about 2½" in diameter. As the picture shows it is very double, petals recurve as it opens to maturity. Grows medium high, begins to bloom in mid-September. It is a beauty and outstanding.

Golden Beauty

SCARLET CRIMSON

Is a low growing variety, bushy but not quite as compact as the Cushion, however it can be used with the Cushion varieties. The flowers are large measuring 3 inches across. The color a very brilliant red full flowered. Begins to bloom early in September.

YELLOW TASAVIA

This is a sport of the white Tasavia. The color is a delicate yellow not too deep and not too pale—just a pleasing shade of yellow. The growing habit and the size of the flower is the same as that of the white Tasavia which grows low like a cushion. Flowers are quite large measuring over 3½ inches across. Blooms early in September.

Per 10, \$2.00; Per 100, \$15.00, from 1¾" pots, 25 at 100 rate

OCTOBER QUEEN

October Queen has all the charm and beauty as that of our Garden Queen which we introduced in 1941. The only difference is that Garden Queen starts blooming as early as August. In the middle of October the shape of the flower is on the Cactus type order. The color is a combination of salmon pink suffused with crimson rose. Underside of petals are lined with creamy yellow. Both Garden Queen and October Queen are two of the finest we have introduced and are sure to please everyone.

MRS. J. ZEMAN

MRS. J. ZEMAN

This is a large double bronze flower, has distinct uniform petals as well as firm stem making an excellent cut flower. Grows to about 15 inches tall. Blooms about Oct. 15th.

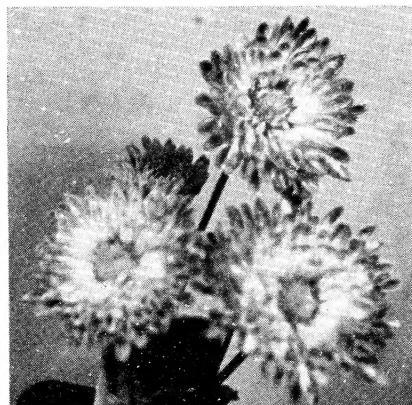

**\$2.00 per 10; \$15.00 per 100, from 1¾" pots,
25 at 100 rate**

DONNA RITA

Is a colorful deep yellow flower unusually sprayed with bronze. Deeper at the outer petals.

It is of medium height, has stiff stems which makes it very good for cutting. Will stand harsh winds, rain or snow without being knocked over. Blooms in October.

\$2.00 per 10; \$15.00 per 100, from 1¾" pots, 25 at 100 rate

DONNA RITA

Other New Novelties for 1943

Balcony Petunia Variegata

BALCONY PETUNIA VARIEGATA

This is truly a variegated petunia true to name. The foliage is a slightly bluish green with the variegation of cream mostly on the outer edges of the leaves. The flowers are of a violet crimson shade, makes a beautiful effect both with the foliage and still better when in bloom. It can be used as a pot plant, bedding out, border plant or used in porch boxes or hanging basket. It is different (brand new) and out of the ordinary types.

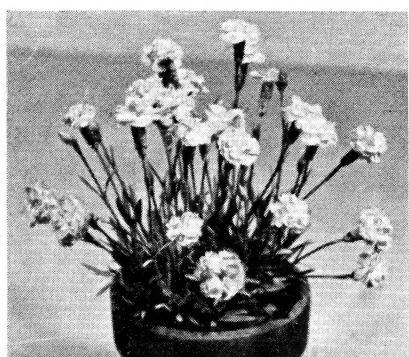

\$1.50 per 10; \$10.00 per 100, out of 2" pots

DIANTHUS SAMMY

NEW LOVELY DOUBLE ROSE DIANTHUS

A seedling of that popular ROSE DAWN DIANTHUS also called ROSE CUSHION DIANTHUS which has a rose colored single flower—but—SAMMY of the new Dianthus has double carnation like flowers. These plants grow about 2 inches high, dense rounded mounds of bluish green foliage covered with double rose pink flowers during May. You will love it. The picture shows a 2 inch potted plant.

\$2.00 per 10; \$15.00 per 100, from 2" pots

DIANTHUS SAMMY

THE MAJOR

In the Lead

The Major Cushion Chrysanthemum is the most admired Hardy Cushion on the market today.

The Major really steps ahead. The most beautiful creation in the Cushion type. We truthfully believe there are no other Cushion to compare with it. If you will note the Photos the large clumps are all one year old planted in May from R. C. They are true pictures as I take them personally. This is one of our 1941 introductions.

The Major Cushion Mum

Smiling out with a bright salmon pink, this beautiful cushion type mum is a super value. Its flowers are full petaled, firm and solid—fuller flowered than the old pink Cushion. Its color does not fade out as the flowers mature but retain their brilliance to the very end. It starts blooming in September.

Rooted Cuttings: Per 10, \$1.25; Per 100, \$10.00

Six Identical Cushions

AZALEA FLOWERED TYPE

These six are positively the same in every respect except for color.

- Rose Cushion, rose
- Pink Cushion, pink
- * ● King Cushion, bronze
- * ● Queen Cushion, white
- * ● Yellow Sport, yellow
- * ● Champion, deep bronze

Rooted Cuttings: Per 10, .75; Per 100 \$5.00

OTHER CUSHION MUMS

	Pink Cushion	Light pink
	Rose Cushion	Rose pink
	Gold Cushion	Deep golden yellow
	Harvest Gold Cushion	Sulphur yellow

Rooted Cuttings: Per 10, .75; Per 100 \$5.00

*	Prince Cushion	Apricot orange
A	Bronze Maid Cushion	Peach & light bronze

Rooted Cuttings: Per 10, \$1.25; Per 100, \$10.00

THE MAJOR

The Major Cushion in the Nursery rows. If you want specimen round clumps, plant 2 to 2 1/2 feet apart.

Notice a close up of the flowers of The Major Cushion, how full and firm they are. The flowers last long too.

The boys are holding 1 yr. field clumps. Notice size of clumps and how heavily loaded with flowers.
